Vols. 1 to 12 — Subject Index.

THE JOURNAL OF THE RUBBER RESEARCH INSTITUTE OF MALAYA

JANUARY 1951

Published by The Rubber Research Institute of Malaya
and
Printed by Charles Grenier & Son, Ltd., Kuala Lumpur, Malaya.

Edited by C. E. T. Mann on behalf of the Board of the Rubber Research Institute of Malaya.

MALAYA

SUBJECT INDEX

Volumes 1 to 12

1928 — 1950

	Volume	page
Absorption of water by rubber, Part I: Methods of evaluation	11	59
properties of rubber from dilute latex	5	299
Achatina Fulica (Fer), control of the Giant Snail	8	130
Acidity of raw humus in relation to natural covers	5	14
Acids, preservation of latex by	7	179
Acetic ether as insect killing agent	5	75
Ageing properties of sheet rubber, effect of drying on	6	90
Agrisol as fungicide for diseases of the tapping panel	1	250
as fungicide for mouldy rot	7	8
for protection of pruned surfaces	3	35
white as fungicide for mouldy rot	7	8
Air-dried sheet	6	35
Alfa-Laval centrifuges	1	115
Alkaline latex, coagulation of	5	351
Ammonium polysulphide as fungicide and insecticide on young rubber plants	2	214
polysulphide as fungicide for budwood	2	192
Analysis of the rubber tree	9	6
of soil samples	7	27
of soils, problem of	1	201
Anatomical characters and yield of Hevea	1	75, 151
Annual Report 1929, Rubber Research Scheme, Ceylon, summary of	2	101
Anti-malarial oil as weedkiller	6	111
Aqua regia and latex, reaction between	11	79
Arsenic as weedkiller	6	111
Asphalts and bitumens as fungicides on estates	2	113
Asphaltum-Kerosene mixture for protection of pruned surfaces	3	35
Autoclaved latex, rubber from	5	302
Bacteria and leguminous cover plants, nodule	8	149
Bacteriological study of the decomposition of soil organic matter and its bearing on the question of manuring	3	5
Bacteriology of Hevea latex	2	139
of preserved latex	10	67
Baits for control of the Giant Snail—*Achatina Fulica* (Fer)	8	130

	Volume	and page
Bale strappings for rubber, dangerous ..	8	290
Bales, packing sheet rubber in ..	11	*Com. 261
(see inside cover	12	*Com. 262)
Baling and packing raw rubber ..	5	373, 379, 385
of raw rubber ..	4	76
rubber, dangerous types of strapping for ..	8	290
Bark renewal on budded trees ..	8	5
renewal, palm and tar oil mixtures as fungicides and effect on ..	9	40
thickness and renewal in Malayan buddings ..	1	125
Batteries, further notes on sheeting ..	4	85
the output of estate sheeting ..	2	226
Biological analysis of soil ..	1	201
Bitumen-latex mixtures, rubber from ..	5	311
Bitumens and asphalts as fungicies on estates ..	2	113
Black Cyllin as fungicide for mouldy rot	7	8
Black Stripe, a disease of Hevea ..	1	250
Blight of young buddings ..	1	118
Book Reviews:		
Annual Bibliography of Rubber Literature, 1937 ..	8	362
Chemistry and Technology of Rubber edited by C. C. Davis and J. T. Blake (American Chemical Society Monograph No. 47) ..	8	219
Chemistry and Technology of Rubber Latex by C. Falconer Flint ..	8	356
Chimie et Technologie du latex du Caoutchouc by G. Genin ..	5	387
Diseases and Pests of the Rubber Tree by Arnold Sharples ..	8	65
Latex in Industry by R. J. Noble ..	7	108
Latex and Rubber Derivatives and their Industrial Applications. Vol. II and III by Frederick Marchionna ..	8	357
Manual of Rubber Planting (Malaya) Edited by A. T. Edgar ..	8	358
Mother Earth by Gilbert Wooding Robinson ..	8	351
Note-book of Tropical Agriculture by R. Cecil Wood ..	8	361

* Com. = *Communication* No.

	Volume	and page
Polymerization and Its Applications in the Fields of Rubber, Synthetic Resins, and Petroleum by R. E. Burk, H. E. Thompson, A. J. Weith and Ira Williams ..	8	217
Principles of Tropical Agriculture by H. A. Tempany and G. E. Mann	2	109
Realm of Rubber by H. H. Ghosh ..	1	216
Rubber: Its Anti-oxidants and Preservatives by Science Museum and Research Association of British Rubber Manufacturers ..	6	72
Science of Rubber by K. Memmler. English translation by R. F. Dunbrook and V. N. Morris ..	6	73
Soil Erosion, some recent publications	8	363
Study of the Soil in the Field by G. R. Clarke ..	8	73
Synthetic Rubber by W. J. S. Naunton ..	8	355
Tropical Crops by O. W. Barrett ..	1	278
Bordeaux mixture as fungicide on young rubber plants ..	2	214
Brass wire gauze for straining latex ..	6	47
	7	55
Breeding and selection of Hevea planting material ..		
1 41; 6 21; 8 105;	10	34, 108
investigation. The Pilmoor crosses 1928-1931 series ..	10	34
Brown Bast, some considerations as to its nature ..	2	1
Brunolinum as fungicide for diseases of the tapping panel ..	1	250
	7	8
mixture for protection of pruned surfaces ..	3	35
plantarium as fungicide for diseases of tapping panel ..	1	250
	7	8
plantarium as fungicide for mouldy rot ..	7	8
Bubbles in sheet rubber ..	1	66
Budded rubber of proved clones in commercial practice, yield of ..	5	139

	Volume	and page
stumps, note on transplanting ..	5	145
trees of proved clones, yield of ..	5	139
trees, tapping experiments on ..	5	90, 97, 113
trees, tapping of ..	8	5
Budding in the field ..	1	50
note on the decay of the "Snag" after ..	1	111
operations, standard instructions for protection of pruned surfaces ..	3	35
operators. R.R.I. Experiment Station notice ..	2	108, 187
procedure in the field and in the nursery ..	1	221
technique on large stocks ..	4	39
work, nurseries for ..	1	224, 226
Buddings, a blight of young ..	1	118
and clonal seedlings as planting material—recommendations ..	9	79
and seedlings in relation to tapping practice, comparison of the characters of ..	8	5
bark thickness and renewal in Malayan	1	125
of proved clones, present position of the planting of ..	1	218
of tested clones. Planting systems for ..	3	48
on large stocks, completion of the union in ..	5	152
treatment of pruned surface of large stocks ..	8	39
Buds, effect of certain fungicides on the viability of Hevea ..	2	192
	3	114
Budwood, effects of fungicides on viability of ..	2	192
	3	114
notes on a test of methods of packing	1	101
Buffer solution, preservation of latex in presence of ..	10	67
Burning, covers and manuring ..	9	68, 73
By-product from latex, Lipin as ..	4	153
from latex, Quebrachitol as ..	3	160
	4	153

	Volume	and page
Calcium arsenate-bran as bait for snails	8	130
arsenate-lime-cement as bait for snails	8	130
Captax test mixture, properties of rubber vulcanized in	12	260
Carbohydrates on the vulcanisation of rubber. Effect of simple	3	150
Carbon and nitrogen contents of some natural covers	4	131
tetrachloride as a killing agent for insects	5	75
Cargilineum mixture "B" as fungicide for diseases of tapping panel	1	8
	1	250
mixture "B" as fungicide for mouldy rot	1	250
	7	8
Carob seed gum for creaming latex. Patent specification	6	140
Centrifugal concentration of latex	7	169
Centralised processing of smallholders' latex and rubber. Experiment 1. Kampong Batu Hampar, Kedah	12	203
machines, latex concentration by	10	78
manufacture of smoked sheet by smallholders	12	266
Centrosema pubescens, Manuring of	11	25, 41
Ceylon, Rubber research in (1929)	2	101
Chemical analysis of soils	1	201
analysis of the rubber tree	9	6, 14
composition of rubber trees in relation to problems of nutrition and manuring	9	14
Clearing methods on the growth of young rubber trees, Effect of cover and	3	28, 110
	4	123
jungle land for planting	9	68, 73
Clonal seedlings as planting material	9	79
Clone rubber (1) properties of	4	140
(2) properties of	5	251
trial plots, note on	1	230
Clones, Breeding and selection of	1 41; 6 21; 8 105;	10 34, 108
for replanted areas, choice of	8	74, 105
and clonal seedlings as planting material	9	79
for use on estates, introduction of new	8	105

	Volume	and page
in commercial practice, yield of budded trees of proved ..	5	139
planting of buddings of proved ..	1	218
planting systems for buddings of tested ..	3	48
Prang Besar—on the Heusser double tapping system ..	3	41
yield results of seedling trees derived from proved ..	7	102
Coagulant, sulphuric acid as a latex ..	4	94
serum as a latex ..	10	126, 144
Coagulants used by Malayan smallholders	7	68
Coagulated with sulphuric acid, Rubber from latex ..	5	282, 295
Coagulation of Hevea latex, Observations on ..	2	156
of Hevea latex due to bacterial activity ..	2	139
of alkaline latex ..	5	351
with sulphuric acid ..	5	282, 295
	12	262, 265
Colour and plasticity of sheet rubber ..	8	291
Communications of the Journal of the Rubber Research Institute of Malaya, change of form ..	9	89
Concentrated and preserved latex, viscosity of ..	9	171, 189
	11	44
Concentration of latex, notes on the ..	1	115
of latex, centrifugal ..	7	169
of latex, patents relating to ..	7	182
of latex by centrifugal machines ..	10	78
of latex, evaluation of creaming agents ..	12	62
Constituents of Hevea Latex:		
Part 1. The isolation and determination of the constituents ..	7	76
Part 2. Seasonal variations in the composition of typical seedling latex ..	8	179
Part 3. Analysis of plantation rubber, and of creamed lactices ..	8	187
Part 4. Effect of ammoniation on latex	8	192
Part 5. Isolation of the constituents	8	308
Part 6. Caoutchene and Caoutchol and the Intermolecular Structure of Rubber ..	8	315

	Volume	and page
Part 7. Studies of the dependence of the composition of latex on various factors operative in the plantation ..	12	278
Containers, Internal protective coating for latex ..	6	81
Internal protective coatings for latex	7	101
Copper, contamination in latex and rubber	6	48
contents of latex and sheet rubber ..	7	55
methods of determination of, in rubber ..	7	55
sulphate as disinfectant, effect of on budwood ..	2	192
sulphate as disinfectant for planting materials ..	3	114
sulphate as fungicide for *Fomes lignosus*	4	5, 34
sulphate as weed killer ..	6	111
Corrosion experiments with metallic straining materials ..	7	55
Cortex, vegetative characters and yield of Hevea ..	1	75
Internal fissures in Hevea ..	2	12
Cover crops under rubber, some diseases of	1	29
plants, nodule bacteria and leguminous	8	149
plants, nematode pest of roots of ..	9	51
crops, manuring of *Centrosema pubescens*	11	25, 41
Covers, Acidity of raw humus in relation to natural ..	5	14
carbon and nitrogen contents of natural	4	131
and clearing methods on the growth of young rubber, effect of (Parts I and II) ..	3	28, 110
and cultivation methods on growth of young rubber, effect of (Part III)	4	123
fertilisers, effect of, on growth of young rubber (Part IV) ..	5	78
and manuring after burning ..	9	68, 73
on rubber estates, use of natural ..	6	62
use of weed killers in the control of natural ..	6	111
Cowper rubber block ..	4	65
Creaming agents, evaluation of ..	12	62
latex with gum tragacanth ..	6	137
latex with synthetic creaming agents	8	343
latex with tamarind seed powder ..	8	346
latex with carob seed gum ("Tragon A") ..	6	140
	12	62

	Volume	and page
Crepe rubber, defects in ..	1	66
factory economics in the preparation of ..	1	232
objections to use of paranitrophenol as a preservative of ..	5	315
packing requirements of New York market ..	1	149
and smoked sheet, notes on defects in	1	66
yellow colour of ..	1	66
Cromatographic analysis, estimation of yellow pigment in raw rubber ..	1	135
Cresson rubber block ..	4	65
Crumb, powders and soft rubbers, patents relating to ..	7	182
Cultivation methods on the growth of young rubber trees (3), Effect of covers and ..	4	123
Curing rubber on smallholdings, smoke-house for ..	6	35
Cuttings of *Hevea brasiliensis*, effect of growth hormones on ..	9	17
Decomposition of soil organic matter, A bacteriological study ..	3	5
Defects in smoked sheet and crepe rubber, notes on ..	1	66
De Laval centrifuge machines ..	10	78
Deterioration of raw rubber by manganese contamination ..	6	42
Development of jungle reserve land for planting with rubber ..	9	68, 73
" Devon " type smoke-houses ..	2	69
Die-back and sun scorch of the tapping panel ..	1	250
Dirt in rubber, rapid determination of the content of ..	12	262
Discolouration of preserved latex ..	5	176
Disease-resistant rubber, South American Leaf Blight ..	1	91
Diseased plant material, collection and despatch of specimens for identification	1	119
Diseases, blight of young buddings ..	1	118
Brown Bast, some consideration as to its nature ..	2	1

	Volume	page
of cover crops under rubber in Malaya	1	29
South American Leaf Blight ..	1	91
Fomes Lignosus, observations on ..	4	5
Fomes Lignosus in young rubber areas, control of ..	4	34
and fungi of the tapping panel ..	1	250
Mildew Leaf disease of *Hevea Brasiliensis* due to *Oidium hevea* ..	2	16
of the rubber tree in Kedah ..	5	35
Oidium hevea, effect of meteriological factors ..	4	104
Oidium hevea, notes on recent observations on ..	2	182
and pests of the "Snag" after budding ..	1	111
root diseases and forestry system of planting ..	4	54
Secondary leaf-fall caused by *Oidium hevea* ..	2	61
Secondary leaf-fall caused by *Oidium hevea*. A notifiable disease ..	2	68
Secondary leaf-fall in Malaya. *Oidium hevea* 1933 ..	5	5
Secondary leaf-fall in Malaya. *Oidium hevea* 1934 ..	5	342
Secondary leaf-fall in Malaya. *Oidium hevea* 1935 ..	6	49
Secondary leaf-fall in Malaya. *Oidium hevea* 1936 ..	7	20
Secondary leaf-fall in Malaya. *Oidium hevea* 1937, 1938 ..	8	140, 232
Wet-root rot. Causal Fungus *Ganoderma pseudoferreum* ..	3	120
Disinfectants as prophylactics for diseases of the panel ..	1	250
Disinfection of planting material ..	2	192
of planting material, further notes on	3	114
Dothidella Ulei, disease-resistant rubber ..	1	91
Dry rubber content of latex from deep and shallow tapping ..	1	132
rubber content of latex, estimation of, by hydrometers ..	12	47
rubber content of latex in relation to vegetative characters and yield of Hevea ..	1	75
rubber content, temperature and viscosity of latex ..	11	44
rubber content and viscosity of latex	9	171

	Volume	and page
Drying, effects on ageing of sheet rubber	6	90
of rubber ..	7	117
Durycolium as fungicide for mouldy rot	7	8
Dusting experiments, report on sulphur ..	4	115
for Oidium leaf disease, cost of sulphur	2	66
Eelworm pests of cover plants ..	9	51
Elements in the rubber tree. Amounts and distribution of nutrient ..	9	6, 14
Erysiphaccal (Mildew) host plants in Java	2	16
Evaluation of creaming agents ..	12	62
Experiment Station, Sungei Buloh. Notices	2	108
Experiments in control of the termite pest of young rubber trees ..	5	160, 170, 175
on tapping systems ..	8	91
on the pollination of *Hevea brasiliensis* and field observations. Part 1 ..	1	41
on the pollination of *Hevea brasiliensis*. Part 2 ..	1	121
uses of statistics in field ..	8	197
with a new type of smokehouse. R.R.I. Tunnel-type smokehouse ..	8	258, 272
with economic tapping systems (1). Parts 1 and 2 ..	5	320
Part 3 ..	6	105
Parts 4 and 5 ..	8	24
Part 6 ..	8	83
Part 7 ..	8	241
with economic tapping systems (2)	11	*Com. 260
(see inside cover	12	*Com. 262)
with economic tapping systems (3) Tapping-cum-manuring experiments on young mature rubber trees. Part 1 ..	10	147, 160
Fasciations in Sumatra seedling crosses	2	38
Factory economics in the preparation of raw rubber ..	1	232
equipment and manufacture of smoked sheet ..	8	163
Fertilisers and covers, effect of, on growth of young rubber ..	5	78
effect of, on growth of Hevea ..	12	129, 167

* Com. = *Communication* No.

	Volume	and page
note on mixing of ..	7	105
rubber requirements of, from the bacteriological aspect ..	3	5
rubber requirements, Malayan data ..	3	57, 94
Fertilising of rubber, technique of plot experimentation ..	2	51
"F.E." sheeting batteries ..	4	85
Field Experiments, manuring rubber, plot technique ..	2	51
uses of statistics in ..	8	197
vegetative characters and yield of Hevea ..	1	75, 151
Field observations and experiments on the pollination of *Hevea brasiliensis* ..	1	41, 121
Fissures, internal in Hevea cortex ..	2	12
Fire in smokehouses, outbreaks of ..	3	172
Flooring materials, latex in ..	10	1
Fomes lignosus as cause of root disease of rubber and its life history ..	4	5
Fomes lignosus in young rubber areas, control of ..	4	34
Forestry system of rubber planting ..	4	54
Full-spiral tapping ..	11	1, 20
Fungi and diseases of the tapping panel	1	250
Fungicide, Palm oil diluent for tar oil, and its effect on bark renewal ..	9	40
Fungicides, use of asphalts and bitumens on estates ..	2	113
for diseases of the tapping panel ..	1	250
effects of, on the viability of Hevea buds ..	2	192
	3	114
spraying experiments on young rubber plants ..	2	214
for the treatment of mouldy rot disease ..	7	8
Gaisman rubber block ..	4	65
Ganoderma pseudoferreum—causal fungus of a root disease of rubber ..	3	120
Giant Snail *Achatina Fulica* (Fer), Suggestions for control of ..	8	130
Glycerine and lime-sulphur as insecticide and fungicide on young rubber plants ..	2	214
Grading and quality of natural rubber ..	12	215
Growth of young rubber trees, 1. Effect of covers and clearing methods on the ..	3	28

	Volume	page
2. (continued from 1) ..	3	110
3. effect of covers and cultivation methods on the ..	4	123
4. effect of fertilisers and cover plants on the ..	5	78
of Hevea, effect of fertilisers on ..	12	129, 167
promoting substances—plant hormones	9	17
Grass mats for baling rubber ...	4	76
Gum Tragacanth for creaming latex. Patent specification ..	6	137
Helminthosporium heveae, fungicide experiments on young rubber ..	2	214
Hessian for baling rubber ..	4	76
Heusser's view on experimental tapping of buddings ..	1	125, 218
system of double tapping as applied to Prang Besar clones ..	3	41
Hevea brasiliensis, structure of flowers and development of bud ..	1	41
buds, Effect of certain fungicides on the viability of ..	2	192
cortex, internal fissures ..	2	12
